

# ATOMIX™

## Integrated Relational Database

**ATOMIX™** is the database that powers and organizes your Noble contact center management solution. **ATOMIX** utilizes the Relational Database Management System (RDBMS) from Informix to offer an industrial strength, enterprise-class database that is the solution of choice among many of the world's Fortune 1000 users.

### Depend on Robust Data Management

In a class above databases like Access, FoxPro and SQL Server 7.0, **ATOMIX** rivals other industry standard database systems, including Oracle, DB2 and Sybase. **ATOMIX** is compatible with SQL and 4GL programming and offers advanced enterprise database technology and Rapid Application Development (RAD) tools.

### View Real-Time Data Updates

The *Noble® Solution* is one of the only systems in the contact market to run directly from a database platform. With its On-line Transaction Processing (OLTP) functionality, the database is automatically, continuously and dynamically updated to reflect events and changes as they occur. This ensures real-time updates and instant data captures and reporting to give your center the advantage of accurate, current data.

### Grow with a Scalable & Open Design

**ATOMIX** delivers a completely scalable and flexible platform to grow with you as your business expands. The open architecture and standards-compliant ODBC driver give you the ability to interface with other tools to create custom reports and integrate with your existing systems. Noble provides an enduring contact center technology platform with unlimited data storage capacity.

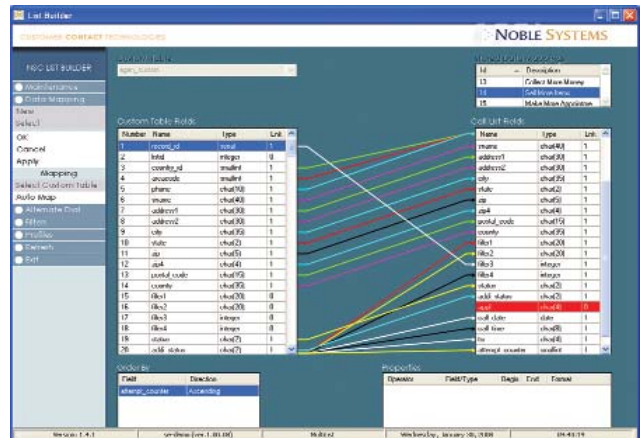

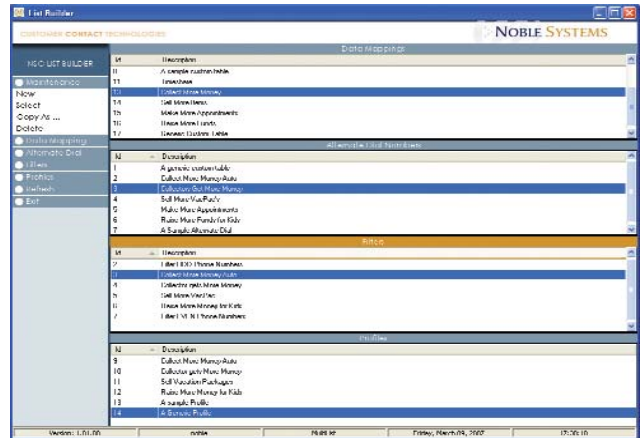

- > Powerful Built-in Informix-based Database
- > Open Design with Flexible Integration Tools
- > SQL, 4GL, .NET, OCX & Rapid Application Development Tools : support virtually any standard application
- > Automatic Real-time DB Updates for Up-to-the-Second Data Accuracy
- > High-Volume Support & Unlimited Data Storage for Business-Critical Information

**“ I chose Noble Systems because they are the only resource vendor that gave me open database access. This gives me the ability to make my system everything we need it to be. Noble has empowered my company to be a premier force in our industry. ”**

# ATOMIX™

## Integrated Relational Database

- > Powered by Informix
- > Advanced Enterprise Database Technology
- > Mainframe-Caliber Data Management
- > Accommodates High Volume Databases
- > Rapid Application Development Tools
- > SQL & 4GL Programming Capabilities
- > Client/Server, Multi-Processor Enabled
- > Unlimited Data Storage for Business-Critical Information
- > On-Line Transaction Processing
- > Automatic & Continuous Updates for Accurate, Up-to-the-Minute Data
- > User-Friendly Front-end for Daily Operations & Report Generation
- > Open Architecture, Open Database Connectivity (ODBC) & Signal Computing System Architecture (SCSA) Standards
- > Unlimited Scalability for System Growth

“ When we invested in Noble Systems, we gained everything. It was a big step for us. Now we have data capturing abilities, a relational database that we can populate on-screen, and more. ”

### ABOUT NOBLE SYSTEMS CORPORATION

Noble Systems Corporation is a global leader in contact center technology solutions, providing innovative products since 1989. Tens of thousands of agents at 4,000+ client installations worldwide conduct business using the award-winning Noble platform for inbound/outbound/blended communications. The scalable, integrated Noble solutions include advanced ACD and predictive dialing; unified contact processing for voice, email, and web; and integrated IVR, digital recording, messaging, quality control/monitoring systems, scripting and workflow, workforce management, and real-time reporting and management tools. Call 1.888.8.NOBLE.8 or visit Noble Systems online at [www.noblesys.com](http://www.noblesys.com).
